CIRCULATING THROUGHOUT THE VAST AGRICULTURAL AREA OF PALM BEACH COUNTY

Vegetable, Cane Make Happy Union

The growing of vegetables and the many hundreds of acres planted in sugar cane have blended one with the other and made a splendidly enhanced economy in western Palm Beach county.

Each month the Belle Glade Chamber of Commerce issues a bulletin, under the direction of Secretary L. L. Price, which is widely distributed. The recent bulletin had a few choice observations which we quote herewith:

"When The Sugar Growers and the mills became a reality here in the Glades, many of our people—including our mercantile boys, both wholesale and retail—cried out that sugar cane plantings would take our close in land and the vegetable boys would be pushed out.

"Those of you who thought that might happen will be surprised to know that the US Agricultural Daily Report on vegetables, in the Glades, shows that the car lot equivalents of all vegetables as of April 25, 1963 was 19,890 cars against the same date last year, 18,055 cars; showing an increase in vegetable shipment of 1836 cars. Which goes to prove that the Glades still has room for expansion and the vegetable farmers are still ahead with six weeks to go.

"The Sugar Tonages shows an overall processing of 381,000 tons of raw sugar for an income of \$61.6 million. The molasses output estimated at 30 million gallons with a value of \$4.5 million. Harry Vaughn, president of the United States Sugar Co., Predicts a 10 percent increase in acreage quotas for next season. Glades sugar production nearly doubled this season despite the most damaging freeze on record."

Captain J. W. Hagan of the Florida Highway Patrol was also a guest.

Cancer Drive Has Fair Cash Results

The annual drive to raise funds for the American Cancer Society in Pahokee and Canal Point has been fairly successful this year. The donations, however, have not been in keeping with the amount of prosperity enjoyed by the agricultural and sugar cane growers this season.

In Pahokee Chairman Dick Parrish was happy over the fact that the Woman's Club under the direction of Mrs. Alice Spooner and Mrs. Avis Fisher garnered \$860.00 in their drive.

In Canal Point one worker, Mrs. Duke Tucker, gathered in about \$300.00 for the cancer effort and said more will be forthcoming in the immediate future before the drive ends.

Coop Mill Bar-B-Q Slated Saturday

The Glades Sugar House will end its first season of sugar production with a barbecue Saturday for its employees.

George Wedgworth, president of the Sugar Cane Growers Co-operative of Florida, which operates the Sugar House, said that approximately 2,000 persons, including employees and their families, are expected.

Barbecued chicken and pork and all the trimmings will be served at the sugar mill.

Last cane of the season was ground at the mill Friday. The mill opened for its first season last fall.

The Sugar House is located off the Airport Road northeast of Belle Glade.

Bob Lee, who is in charge of the affair, wishes to know who is coming by Friday afternoon in order that he may order an extra pig or side of beef and enough refreshments for all guests.

Refinery At Moore Haven Ends Deal

Sugar refining work was completed last week at the Moore Haven refinery, with the first season's refined sugar production 194,760 bags (100 lb. bags).

Luis deArmas, assistant mill manager, said the refinery machinery was cleaned and disassembled and that the personnel involved will be off during May. They will be recalled in June, for repair and reassembly of the refinery and mill machinery, to have the equipment in readiness for the next season by Oct. 15, De Armas said.

The next grinding season is anticipated to begin about the last week in October.

The grinding season for the Moore Haven mill began last Dec. 17, with the first test runs, and ended March 15.

The mill produced 13,217 tons of raw sugar during the first season. This resulted in 9,738 tons of refined sugar, or slightly more than 70 per cent refined from raw sugar.

Two Fine Families Move From Area

Pahokee and Canal Point are to lose two splendid families in the immediate future when Mr. and Mrs. Ray Raulerson of Pahokee and Mr. and Mrs. Joe Cherry and sons, Barney and Bruce, of Canal Point move to Okeechobee to make their future homes.

They will operate a large ranch about 20 miles north of Okeechobee but will live in the city of Okeechobee near the school where the fine young Cherry youngsters will continue their education.

Messers. Raulerson and Cherry have leased their ranch east of Canal Point to J. E. (Jake) Williams of Pahokee.

The Cherry family will move their house now located on Conners Highway east of Canal Point to Okeechobee. They plan also to move their barn if it proves practical and possible, Mr. Cherry said.

Mr. and Mrs. Doyle Brannon of Melbourne were called to Canal Point last week by the illness of her father, Mr. B. Cross. Mr. Brannon returned to Melbourne Sunday, and Mrs. Brannon on Wednesday.

Bank Of Pahokee Open House May 19

With an extensive expansion and remodeling-refurbishing program completed, the Bank of Pahokee—Oldest Bank in Palm Beach County—will hold an Open House Celebration on Sunday afternoon, March 19, according to Bank President Rupert Mock.

Mr. Mock said that the Celebration has been set for the three hours between 2 p. m. and 5 p. m. a week from this coming Sunday. He pointed out that the officers, directors and staff are joining in extending a cordial invitation to residents of Palm Beach County to pay the bank a visit and see first hand the many wonderful improvements made to expedite the financial institution's banking services.

In the remodeling program the entire building next door, where an automobile parts store formerly was located, has been incorporated in the bank's extended floor space. Many handsome offices have been built and a director's room adds to the many conveniences of the remodeled area.

The bookkeeping department has been moved out of the public area and is conveniently situated just off the teller section of the bank. Those working therein have all modern facilities to handle the accounts. New teller counters have been added to provide additional service to the many hundreds of patrons of the bank, some of whom in the past, may have had to stand in line for a minute or two.

So, Sunday afternoon, March 19, if you'd like to see the completed bank and its many fine facilities just drop by between two and five. While visiting the institution you may also remember that it was chartered as a state bank in 1922 and has weathered any and all financial storms since that date—thereby becoming "Palm Beach County's Oldest Bank."

*"Today we need a nation of Minute Men
citizens who regard the preservation of freedom
as a basic purpose of their daily life"*

—JOHN FITZGERALD KENNEDY

10 days after his inauguration
as the 35th President of the
United States.

Twenty years ago, in the dark, uneasy days before Pearl Harbor, the Minute Man of Concord, timeless symbol of our Nation's determination to defend its freedom, emerged as the emblem of the U. S. Savings Bonds Program. When war came, the Minute Man became the rallying force behind the huge and overwhelmingly successful effort to back our fighting men with War Bonds.

In this, the 20th anniversary year of Savings Bonds, the Minute Man of Concord calls all Americans to an unrelenting effort to help preserve our peace and freedom, threatened by forces more powerful and resourceful than those we faced in 1941. Though this effort will take many forms, one way open to all is the continued investment in Shares in America, U. S. Savings Bonds, by "citizens who regard the preservation of freedom as a basic purpose of their daily life."

Industry Should Get Small Business

ORLANDO — Wendell Jarrard chairman-director of the Florida Development Commission, praised Florida industry recently but termed its distribution "lopsided."

Delivering a kick-off speech for the Florida Industries Exposition in Orlando, Jarrard called for a share-the-industry approach to help locate incoming industry in underdeveloped areas of the state.

While a handful of metropolitan areas are bursting with new industry, growth and traffic jams, "70 per cent of the state has no traffic jam," Jarrard declared.

Key to the problem, he added, lies in bringing more small business and industry to small communities.
